Mechanical/Electrical Engineering Solutions

ENGINEERING YOUR CAREER

NEVER STODGY, FAR FROM STAGNANT, WE'RE AHEAD OF THE GAME.

We're like you; quick on our feet, ahead of the pack and energetic. We're interested in you because you fit. We need to hire the best.

We differ from the corporate giants of the engineering world in our approach to new hires. Where the other guys may have you pushing papers for the first year, we put you on projects right away. We need your good ideas to stay ahead.

BKM is somewhere you want to work, somewhere you can rise through the ranks, and somewhere you are eager to come to and contribute each day.

NEED TO HEAR MORE? GREAT. WE'RE READY TO TELL YOU MORE.

At BKM, your ideas matter. And your ideas get used. We encourage ownership and collaboration. That means you get to own your projects while working hand-in-hand with a project manager and the firm's principals. That's right, the principals of the firm are involved and accessible to you.

If you're looking to become an integral part of an engineering team, and you have what it takes, then congratulations, BKM has your career ready and waiting.

THE CAREER YOU'VE BEEN WAITING FOR.

BIO

Age
23

Time On Staff
1 year, plus 5 month
internship

Education
Bachelor of Science,
Mechanical Engineering,
UMBC, Class of '08

- › Sports: Active in Soccer, Tennis, and Basketball
- › Favorite Night Spot: Fells Point (downtown Baltimore)
- › Favorite Dining Spot: Mari-Luna (Mexican; the best steak tacos, ever)
- › Favorite Cultural Venue: The Historic Senator Theatre

ABOUT BKM

Burdette, Koehler, Murphy & Associates is a full service m/e/p engineering firm located in Baltimore, Maryland.

We have over 40 professional and technical staff, including registered engineers and LEED Accredited Professionals. Our personnel specialize in several design areas including higher education, student life, K–12, life sciences, healthcare, government, corporate, and mission critical.

BKM was built based on the philosophy of collaborating with our clients to provide engineering solutions that are energy conscience, cost-effective, and design savvy. We work to impress—from meeting extreme requirements to exceeding clients' expectations.

Jim Barrett, Mark Flickinger, and Gary Johnson lead the company and its talented team of design professionals. Under their leadership, BKM remains on the cutting-edge in providing creative solutions and innovative approaches to our clients' design challenges. We ensure this by assigning management-level professionals who are actively involved in each project.
