ENGINEERING YOUR CAREER

NEVER STODGY, FAR FROM STAGNANT, WE'RE AHEAD OF THE GAME

We're like you; quick on our feet, ahead of the pack and energetic. We're interested in you because you fit. We need to hire the best.

We differ from the corporate giants of the engineering world in our approach to new hires. Where the other guys may have you pushing papers for the first year, we put you on projects right away. We need your good ideas to stay ahead.

BKM is somewhere you want to work, somewhere you can rise through the ranks, and somewhere you are eager to come and contribute each day.

NEED TO HEAR MORE? GREAT. WE'RE READY TO TELL YOU MORE.

At BKM, your ideas matter. And your ideas get used. We encourage ownership and collaboration. That means you get to own your projects while working hand-in-hand with a project manager and the firm's principals. That's right, the principals of the firm are involved and accessible to you.

If you're looking to become an integral part of an engineering team, and you have what it takes, then congratulations, BKM has your career ready and waiting.
