

Engineering Marvels

HH HARDESTY & HANOVER, LLP
Engineering That Moves You.

Hardesty & Hanover is a full-service infrastructure engineering firm with 120 years of experience in solving complex engineering challenges throughout the globe. We take a forward-thinking approach, leveraging the world's latest management, design and support innovations. As a result, your projects are brought in on time, on budget, and are engineered to the highest standards in design, safety and aesthetic value.

No matter what your geographic location, our kinetic architects are ready to solve your most complex challenge through engineering solutions you never imagined possible.
