

THERE'S A NEW KID ON THE EASTERN SHORE,
AND HE JUST TURNED 50 YEARS OLD.

John E. Harms, Jr. & Associates announces the opening of its newest office in Easton, Maryland.

For 50 years, Harms has served our clients in Central and Western Maryland. Now, we're excited to announce the opening of our new Easton, MD office. This office will provide to the Eastern Shore the same quality planning, engineering, and surveying services that we presently offer to all our clients. Only now those services will stretch from the shores of Ocean City to the mountains of Garret County. From all of us at Harms, we look forward to meeting, serving and building strong partnerships with our new Eastern Shore neighbors.
